

HONDA-POWERED HOVER MOWERS

ALLEN HAS TEAMED UP WITH HONDA TO OFFER HOVER MOWERS POWERED BY HONDA'S GVC AND GXV E-SPEC 4-STROKE ENGINES, SPECIFICALLY DESIGNED FOR CONTINUOUS INCLINED OPERATION. HONDA'S DUAL LUBE DIPPER-AND-CAM-BELT OIL TRANSPORT SYSTEM MAINTAINS POSITIVE LUBRICATION ON THE MOST DEMANDING SLOPES. A HIGH-PERFORMANCE FUEL PUMP ENSURES CONSTANT FUEL DELIVERY REGARDLESS OF DEGREE OF INCLINE. THESE LOW-EMISSION ENGINES HAVE BEEN DEVELOPED TO CONFORM TO TODAY'S CARB TIER 2 REQUIREMENTS AND THE EVEN MORE STRINGENT EPA PHASE 2 REQUIREMENTS.

ALLEN 4-STROKE HOVER MOWERS OFFER CARB COMPLIANCE WITH HIGH PERFORMANCE:

- STABLE HIGH-TORQUE POWER FOR CAPABLE CUTTING IN THE DENSEST GROWTH.
- LOW MECHANICAL NOISE DUE TO HONDA'S INNOVATIVE UNIBLOCK COMBINED BORE AND HEAD DESIGN THAT INCORPORATES AN OIL-IMMERSED OVERHEAD CAM BELT.
- HIGH POWER-TO-WEIGHT RATIO (COMPARABLE TO 2-STROKE ENGINES) THANKS TO WEIGHT-CONSCIOUS ENGINEERING.
- EASY STARTING PROVIDED BY AN AUTOMATIC CYLINDER DECOMPRESSION STARTING MECHANISM.
- OUTSTANDING FUEL AND OIL ECONOMY OF A 4-STROKE, WITH LONGER LIFE EXPECTANCY DUE TO THE UNIBLOCK ENGINEERING, WHICH MINIMIZES MECHANICAL COMPLEXITY AND ENGINE COMPONENTS.

THESE HOVER MOWERS HAVE ALL THE DESIGN AND ENGINEERING ADVANTAGES THAT MAKE ALLEN THE #1 CHOICE OF PROFESSIONALS:

- INDUSTRY LEADING 14" IMPELLER FOR MAXIMUM LIFT AND SMOOTHER MOWING.
- EXCEPTIONALLY STRONG AND LIGHTWEIGHT ABS INJECTION-MOLDED DECK DESIGNED TO ENHANCE LIFT, HANDLING AND CUTTING PERFORMANCE.
- 8-BOLT ENGINE-MOUNT FRAME WITH RECESSED FLEXIBLE FITTINGS, PLUS HEAVY-DUTY HANDLE MOUNTS WITH NYLON BUSHINGS, MAKE THESE UNITS NEARLY INDESTRUCTIBLE AND PROVIDE SMOOTH, VIBRATION-FREE OPERATION.
- EXTRA-LONG, REAR-MOUNTED HANDLE WITH COMFORT GRIP PROVIDES LONGER REACH, BETTER CONTROL AND GREATER STABILITY IN EXTREME CONDITIONS AND DIFFICULT CUTTING AREAS.
