

**888 - 8 - SPYKER**  
Spread with the best

**ACCURACY - CONTROL - EFFICIENCY**

These are all words that describe our improved **BARRIER SHIELD**. Our shield gives you the spread control you have been looking for, allowing you to keep the salt or ice-melt on target. By controlling the spread you save time and money by conserving salt/ice-melt as well as reducing the damaging effects salt can have on nearby plants.
