ATTACHMENTS & ACCESSORIES

BORDER PATROLS

Prevents spreading on walks, drives, planting beds & selected areas by deflecting the spread pattern, while maintaining an even spread across the entire spread band.

BARRIER SHIELDS

Use to direct product downward (36" width), converting the rotary spreader into a drop spreader. Perfect for ice melt and salt spreading or for targeting specific areas.

MULCH SPINNER BASKET

Provides improved spread pattern and even flow for products with high-volume applications.

CALIBRATION TRAYS

Produces accurate spreading or increases effectiveness of product while reducing waste. A must for any landscaper, turf professional and golf superintendent.

TAILGATE CADDY

The Tailgate Caddy was designed to ease the transport of a Spyker Spreader. It may be side or tailgate mounted to most utility vehicles. Construction supports full hopper capacities during transport.

HOPPER COVERS

Hand-stitched for a tight fit, prevents spills and assists in eliminating waste. Protects user from product hazards.

REESE™ CADDY

The Reese™ Caddy mounts to 2" Reese™ system. Provides easy transport for spreaders.

FIRE ANT BAIT PLATE

- Spreads 1lb per Acre
- Delivers Fire Ant Bait accurately and evenly
- 3 Different Styles used, for Model 46, Mulch & More Series, and general spreaders.

TOP DRESSING KIT

- Eliminates excessive wear and the harsh effects of sand

HEAVY-DUTY AGITATOR

- Used for heavy and bulky material, such as rock salt, sand, etc.

AGITATOR BLADE-SAWTOOTH

- Used for light and fluffy material

ELECTRIC SPREADER ACCESSORIES

- 3-Point Hitch / Category I

- ATV Mount with Extension Handle

- Foot Pedal Mount

- Reese™ Hitch Kits

- Gator™ Mount

- ZTR Mount

Additional Mounts for Utility Vehicle and ZTR Applications Are Available. Please Call Customer Service for More Information.

**All mounts are black powder coated*
